“I am one of the infection control nurses. We have dropped these keyboards, slammed the keys, put them through the dishwasher many times. We also test these periodically with our ATP tester and they consistently register below 10, which is considered a low bacterial count. I have also washed them with our hospital-grade detergents without any problems.”

Brian J Rogers, VHAROS

100% Waterproof
Seal Shield™ waterproof technology (Patent Pending) means these products are fully submersible* and manufactured to meet rigorous NEMA 4X and IP68* specifications.

Silver Seal™ Protection
Many of our products are protected with Silver Seal™, an antimicrobial, fungistatic agent which makes the product greener and fresher by inhibiting the growth of microbes, odor-causing bacteria, mold, mildew and fungi on the product's surface.

100% Spillproof
When accidents happen, rinse off the product or put it in the dishwasher. Your Seal Shield™ product comes out clean and ready to use.

Dishwasher Safe
Seal Shield™ products are easy to clean. Just put them in the dishwasher to thoroughly clean and disinfect the unit.

Durable and Eco-Friendly
Manufactured from non-corrosive components and certified to be RoHS compliant.

*Silver Storm keyboards are IP66 and are not fully submersible
